

MAN B&W Engine, Reduction Gear Box PTO Gear Box ,Propeller & Shaft And All Running Gear

- Main engine 12V23/30A - engine no. 12411 Hours 6500
- Manufactured in 1998
- Reduction gear Box 23VO22
- Propeller equipment VA 670
- Remote and safety control system ATIA
- Flexible coupling between engine and gearbox
- Engine front and PTO gearbox, including shafts and flexible couplings
- Air supply unit for over speed shut-down
- Lubricating oil thermostatic valve DN80 - 49C
- Lubricating oil cooler make Alfa Laval M6-FG
- Lubricating oil fine filter CC Jensen
- Lubricating servo oil pump
- Oil cooler Alfa Laval M6-FG
- LT fresh water thermostatic valve 4" 35C
- High temperature cooler Alfa Laval M10-MFM
- Alphronic interface / control unit and safety system
- Central cooler Alfa Laval M10-BFM
- Bridge safety panel
- Shaft panel
- Filter unit
- Power supply
- Bridge panel
